I am a passionate and results-driven Mobile Application Developer with over seven years of experience. Over the course of my career, I have had the privilege of working on a diverse range of projects that have honed my skills and deepened my love for Mobile Application Development. I am now seeking new challenges and opportunities that will allow me to further expand my horizons and make a meaningful contribution to innovative teams.

SUMMARY

- 8+ years of experience in mobile application development (iOS, Swift / Objective-C, React Native).
- Proficient in Xcode IDE, iPhone SDK, Git/GitHub, Cocoapods, Visual Code, Third-Party library integrations.
- Excellent in user interface design, comprehensive testing, debugging processes and problem solving.
- A strong foundation in object-oriented programming, clean code principles, and system design skills.
- Experienced with each phase of Software Development Lifecycle, Agile Development processes and Git version control.
- Good at requirement understanding and client communication.
- Adept at code review procedures and experienced in Git branch management.
- Proficient in hybrid mobile app development.
